AMSOIL TOLL-FREE ORDERING LINE:

1-800-777-7094

Ordering Information

SIMPLE AND EASY ORDERING PROCEDURE
... WITH IMMEDIATE DISCOUNTS WHEN YOU BUY!

There's a simple way to cash in on big savings when you buy AMSOIL Products. Just total up the Dealer Cost of your order, look at the Freight Allowance and Purchase Discount Schedule (shown at right) and deduct the percentage shown from the total.

It's as simple as that and it's worth a big savings to you every time you order from your AMSOIL Distribution Center. (Note: Discounts don't apply to non-commissioned items such as literature, clothing, by-pass filter parts, etc.)

How To Order With the Purchase Discounts

1. Fill out your order.
2. Subtotal your order several spaces above the space where the Totals go.
3. Multiply the subtotal of your Dealer Cost by the % discount you receive (as per the Freight Allowance and Purchase Discount Schedule at right).
4. Write down this amount and put it in parentheses. Example: (100.00)
5. Subtract this amount from your Dealer Cost and continue filling out your order.

HOW TO MAKE ORDERING EASY...AND FAST!

Use the orders-only 800 number. 1-800-777-7094
AND:

Ordering Hours: 7am-5pm Central time,
Monday-Friday, except U.S. statutory holidays.

Faxes accepted 24 hours, 7 days a week at
715-392-5225 or 715-392-5267.

Call in your order (for pickup or shipment). Tell the AMSOIL Toll-Free Ordering personnel if you are paying with a check or charging with a Visa or Mastercard.

All variables (including shipping and handling, sales tax, purchase discounts, etc.) will be determined for you and applied to each order.

OR:

For direct withdrawal, use the Sales Draft Ordering System.

(Contact Dealer Services at AMSOIL in Superior for an application.)

FREIGHT ALLOWANCE AND

ONLINE ORDERING INFORMATION

To order product online at www.amsoil.com:

Click on the Dealer Zone link at the top right of the AMSOIL home page. Enter your ZO number and your password to enter. If you have not set up a password, click on the "New Registration" link at the bottom of the log-in area. Enter your ZO number and click "Submit", and a link will be e-mailed to you that allows you to set a password. Once inside the Dealer Zone, you can choose to use the Dealer Orders link which takes you to our EZ Online Order Forms, or choose the Online Store Link to browse through products in the store.

FOR AQUABRITE AND ALTRUM PRODUCT PRICES, REFER TO YOUR G-8326 PRICE LIST.
FOR LITERATURE & SALES AIDS, REFER TO YOUR G-15 PRICE LIST.

Series 2000 Synthetic 0W-30 Motor Oil
 Race-proven technology designed for passenger cars. Outperforms conventional and synthetic 30-weight motor oils. Ideal for hot and cold climates. Superior low temperature flow, fuel efficiency and wear protection. Recommended for all domestic and foreign vehicles requiring either 0W, 5W, or 10W-30 motor oils. Worldwide performance specifications include: **API SL/CF, ILSAC GF-3, ACEA A2/3 B2/3/4**

XL Synthetic Motor Oils
 AMSOIL Extended Life Synthetic Motor Oils deliver exceptional protection for 7,500-mile/6-month oil change intervals or longer where stated by vehicle manufacturers or indicated by electronic oil life monitoring systems. They provide "Peace-of-Mind" for owners of modern vehicles where drain intervals exceed conventional oil recommendations of 3,000 miles. Worldwide performance specifications include: **API SM/CF, SL • ILSAC GF-4, 3**

Synthetic Motor Oils

Engineered to outperform all conventional gasoline engine motor oils. Reduce heat, friction, and wear for maximum power, performance, and fuel efficiency. Clean engine formula. Resists high temperature break down that forms sludge and varnish. Lasts longer and protects better. Ideal for hot and cold climates. Recommended for all domestic and foreign vehicles where the most demanding worldwide specifications are listed. This includes gasoline and light

duty diesel engines, both turbo and non-turbo. Worldwide performance specifications include:

API SL/CF, ILSAC GF-3, ACEA A2/3/ B2/3, JASO VTW

Synthetic High Performance Motor Oils

Formulated for use in both gasoline and diesel engines. Offers multi-functionality and excellent wear protection. Ideal for applications where the extra protection of a higher viscosity oil is desired. Excellent for motor homes and older vehicles, as well as most types of modern equipment. Performance specifications include:

API SL/CF & CI-4+

NEW Formula 4-Stroke Marine Motor Oils

Formulated specifically for use in 4-stroke gasoline fueled engines used in marine applications. Offer unsurpassed wear protection, viscosity stability, low volatility and excellent low temperature fluidity. Certified to meet NMMA FC-W performance specifications. Meets "Warranty Certified" status of engine manufacturers. Recommended for use in 4-stroke outboard motors including Honda, Yamaha, Mercury, Suzuki, Johnson-Evinrude (BRP), Nissan and Tohatsu.

Excellent for use in marine stern drives (inboard/outboard) including Mercury (MerCruiser), OMC and Volvo-Penta. Also for use with marine inboard power plants including Crusader, Marine Power, GM, Ford and Chrysler. Recommended for use with personal water craft (PWC) including Sea Doo (BRP), Honda and Yamaha. Global performance specifications include:

- **10W-30 (WCT) - API SL, NMMA - FC-W (certification #FB-30011B)**
- **10W-40 (WCF) - API SL, NMMA - FC-W (certification #FB-30010B)**

NEW Synthetic Motorcycle Oils

Improved and reformulated to address the specific lubrication needs found in modern motorcycle applications. Contain no friction modifiers to insure exceptional wet clutch performance. Robust anti-wear additive packages provide superior wear protection for longer equipment life. Reduce friction and minimize heat generation to insure cooler engine operating temperatures. Multi-functionality allows use in both motorcycle engines and transmissions. Meets the

performance specifications of Harley-Davidson, Honda, Kawasaki, Yamaha, Suzuki, BMW, Husqvarna and KTM motorcycles. Worldwide performance specifications include: **API SG, SL/CF, JASO MA & API GL-1**

Synthetic 15W-40 Heavy Duty Diesel Oils

Engineered for all types of diesel engines and with an emphasis on modern, low emission heavy-duty diesel engines. High 12 TBN controls acids from combustion blow-by and EGR. High levels of detergency and dispersancy additives control soot thickening, oxidation, and wear. Prevents bore polishing, deposit formation, and ring sticking. Provides clean engine performance. Extended drain capabilities reduce downtime and motor oil expenses. Worldwide performance specifications include: • API CI-4+/CF-2/SL • Global DHD-1 • ACEA A3/B3, E3, E5 • JASO DH-1 • Mack • Detroit Diesel • Caterpillar • Cummins • Volvo • Diamler-Benz

Synthetic SAE 30 Heavy Duty Diesel

Exceeds both 10W-30 multi-grade and SAE 30 straight-grade viscosity requirements. Provides outstanding performance in older and modern diesel engines as well as gasoline engines. Excellent for heavy equipment and personal vehicles. Worldwide performance specifications include: • API CI-4+/CF-2/SL • Global DHD-1 • ACEA A3/B3, E3, E5 • JASO DH-1 • Mack • Detroit Diesel • Caterpillar • Cummins • Volvo • Diamler-Benz

SEVERE GEAR Synthetic EP Lubricants

Specifically engineered for high demand applications, including trailer towing, heavy hauling, 4X4 off road driving, commercial use, and racing. Superior lube "film strength" combined with extra additives protects gears and bearings from scoring and wear. Resist high heat and posses excellent cold flow properties. Outperforms all conventional gear oils. Recommended for all types of vehicles such as turbo diesel pick-ups, SUVs, autos, trucks,

heavy equipment and motor homes. Compatible with most limited-slip differentials. Performance specifications include: API GL-5/MT-1, MIL-PRF-2105E, GO-J, SHAES 234 (Eaton PS-037)

75W/80W-90 Marine Gear Lube

Improved and reformulated to meet even broader specifications. Meets the performance requirements of 13 manufacturers including Mercury/Mariner, Johnson/Evinrude, Bombardier, Honda, Yamaha, Suzuki, Nissan and many more. Contains a stable extreme pressure additive package that provides superior protection from shock loading. Water resistant and non-foaming formulation maintains a full lube film to provide optimum lubrication. Retains extreme pressure protection even when subjected to 10% water contamination. Global performance specifications include: **API GL-4, GL-5**

Synthetic Universal Automatic Transmission Fluid

Meets the requirements of most automatic transmissions. Eliminates confusion, mis-applications, and lowers inventory requirements. Delivers maximum protection and is excellent in demanding environments such as towing, hauling or commercial use. Lasts longer than conventional oil for extended drain intervals. Saves time and costly maintenance expenses. Superior hot and cold weather performance. Improves efficiency and typically reduces operating temperatures by as much as 50

F. Performance specifications include: **GM Dexron®III, Ford Mercon & Mercon V, Chrysler ATF+ through ATF+4, Allison C-4, Cat TO-3, Voith, ZF TE-ML-14C, Toyota Type T & T-IV, Mitsubishi/Hyundai SP-III, Honda Z-1**

NEW Synthetic Manual Transmission and Transaxle Gear Lube 75W-90 & API GL-4

Designed to meet the special requirements of certain manual transmissions and transaxles. Replaces AMSOIL 80W-90 Synthetic Gear Lube (AGT) and provides improved internal component protection. Formulated with extreme pressure additives and advanced synchronesh qualities that provide smooth shifts while protecting gears, bearings and seals. Non-corrosive to yellow metals. **Recommended for use in:** synchronized manual transmissions and transaxles that require a 75W-85, 75W-90 or 80W-90 API GL-4 gear lube.

Can also be used in NV 4500 transmissions and replaces GM part # 12346190 and Chrysler part # 4874459 (Chrysler specification MS-9070). Meets GL-4 specifications required by some models of Acura, Hyundai, Infiniti, Kia, Land Rover, Lexus, Mazda, Mitsubishi-Fuso and Zetor. Ideal for muscle car transmissions including Muncie, Borg-Warner, Saginaw, Ford Toploader, Dearborn and New Process.

NEW Synthetic Synchronesh Transmission Fluid 5W-30

Specifically designed for manual transmissions and transaxles with synchronesh systems that require light viscosity, non-extreme pressure fortified oil. Formulated with advanced additive technology to provide proper friction characteristics for smooth shifting without grinding or bump shifting while providing the ultimate in gear and bearing protection. Outperforms motor oils in manual transmissions and is the recommended replacement for AMSOIL Series 3000 Synthetic 5W-30 Heavy-Duty Diesel Oil (HDD) in transmission applications. Protects at extreme

temperatures from -40° F to 300° F. Possesses outstanding anti-wear and anti-foam properties and is non-corrosive to yellow metals. Recommended for use in: manual transmissions and transaxles such as: • New Venture NV T350, NV 1500, NV 3500, NV 3550, NV 5600 • Tremec T-4, T-5, T-18, T-176, T-500 and T-600 • Honda Genuine MTF. MTF is a SAE 5W-30, however, it is not for use in engines or wet clutches. Replaces GM part # 12345349, 12345577, 12377916 and 1052931 as well as Chrysler part # 4874464 and 4874465. Meets GM specifications 9985648, 9986105 and 9985535 and Chrysler MS-9224 and MS-9417.

Synthetic Powershift Transmission Fluids

Specifically formulated for heavy-duty powershift transmissions. Provides outstanding friction performance for enhanced clutch engagement. Prevents slippage and glazing. Shear stable and anti-wear fortified protects gears and bearings. Resists high temperature oxidation, varnish and sludge formation. Superb cold flow properties. Extended drain interval capable. Recommended for heavy-duty service found in commercial and earth moving applications as well as lighter duty transmissions requiring the listed specifications. SAE 50 & 30 are also excellent for manual transmissions.

Synthetic Two-Cycle Oils

Engineered for maximum performance in specific applications, yet recommended for use in multiple applications. All two-cycle oils contain application specific additives designed to prevent carbon build-up, ring sticking, plug fouling and varnish formation. All two-cycle oils provide excellent lubricity to prevent wear and piston scuffing.

HP Injector™

Excellent for all outboard motors with a performance emphasis on modern direct fuel injected (DFI) technology. Also recommended for personal watercraft, jet boats, motor-cycles, snowmobiles and ATVs. Injector use or 50:1 premix. **TC-W3, API TC**

Interceptor™

A high-performance two-cycle oil, with a performance emphasis on exhaust power valves. Excellent for all types of snowmobiles, motorcycles, personal watercraft, ATVs and jet boats. Contains high levels of detergent additives to prevent valve sticking. High quality replacement for manufacturer branded oils. Injector use or 50:1 premix. **JASO FC, API TC**

Saber™ Two-Cycle Oils

Designed for pre-mix applications as lean as 100:1 ratios. Richer mix ratios may be used where desired. Saber™ oils improve throttle response, lower or eliminate smoke, prevent deposit formation, and lower emissions.

Saber™ Professional has a performance emphasis on hand-held power equipment such as chain saws and lawn/utility equipment. **ISO-L-EGD,**

JASO FC, API TC

Saber™ Outboard has a performance emphasis on the cooler operations of water-cooled motors. **TC-W3 (pre-mix), API-TC**

Synthetic Multi-Purpose Grease

Reduces friction and wear in high-speed, high-temperature components such as automotive wheel bearings and electric motors. Keeps components running clean and trouble free for outstanding performance and long life. NLGI #0 and NLGI#1 greases have better mobility and are preferred for cold temperature and automatic pump systems. NLGI#0 is not recommended for automotive wheel bearings. NLGI#2 is the primary wheel bearing recommendation.

Synthetic Tractor Hydraulic/Transmission Oil SAE 5W-30
 AMSOIL Synthetic Tractor Hydraulic/Transmission Oil is the modern lubricant for modern farm and industrial equipment as well as commercial and residential lawn tractors. Engineered specifically to meet the tough applications of heavy-duty, hydraulic-powered operations and the demands of hydrostatic transmissions. Exceeds the performance requirements of virtually every piece of modern machinery. Provides exceptional lubrication to reduce wear, resist heat, protect against rust and extend fluid and equipment service life. Meets "All Season" summer and winter performance standards.

Synthetic Compressor Oil
 The correct manufacturer recommended viscosity grade of AMSOIL PC Series compressor oil is recommended for use in rotary screw, rotary vane, reciprocating and other compressor applications. AMSOIL Synthetic PC Series Compressor Oils are compatible with PAO-, ester- and petroleum-based compressor oils. They are not compatible with glycol- or silicone-based compressor oils. Consult AMSOIL INC. for further information.

Super Duty Oil Filters

A full-flow oil filter designed for extended drain intervals and severe service. The rugged filter body contains a high-tech blended filtration media composed of cellulose, synthetic and glass fibers. The advanced media increases capacity, efficiency and service life.

Refer to the Oil and Air Filter Application Guide (G-194 and G-1555) to determine the correct oil filter stock number.

Power Core Air Filters

AMSOIL now offers premium PowerCore® Air Filters for Ford 6.0L Diesel PowerStroke™ and H2 Hummer 6.0L Vortec™ applications. The rugged structure of PowerCore® filters features an innovative, layered, fluted filter media which is ten times more efficient than standard filter designs. This design offers an increased contaminant holding capacity and eliminates media

movement, expansion, contracting and bunching. Servicing is also easier due to a lighter, smaller design.

Donaldson Ford 7.3L Power Stroke Diesel Air Induction System

Specifically designed for Ford diesel owners, this system supplies clean, unrestricted air for optimal performance. Three times more efficient than the industry leading cellulose media, the totally non-metallic PowerCore technology allows for 99.95 percent air filtration efficiency. 400 times more efficient at capturing harmful dust and contaminants than typical washable filters. Greater capacity with 16 times more media surface than washable filters, and 9 times the media surface of conventional filters. Installs in 35 to 40 minutes, with no extra parts to buy.

By-Pass Oil Filters

Engine wear is caused by dirt particles larger than 5 microns. The AMSOIL By-Pass Oil Filter removes particles as small as 1/10 of a micron, virtually eliminating engine wear. AMSOIL By-Pass Oil Filters filter all the oil in a six-quart system in about five minutes at an average engine speed equivalent to 70 kph.

AMS-Oiler Pre-Charger

The **AMS-Oiler™** pre-charger effectively puts an end to dry-engine starting. Motor oil is injected directly on the engine bearings and other wear sensitive surfaces upon turning the ignition key. Its rugged construction withstands severe service and performs reliably in any personal, commercial or industrial application. Outperforms gas and air charge systems. Mechanical life cycle exceeds one million engine starts, with no maintenance required.

MP Heavy Duty Metal Protector

A heavy-duty spray lubricant fortified with special rust and corrosion inhibitors. Penetrates and adheres to metal surfaces, leaving a long-lasting protective coating. Apply MPHD to any metal surface that requires a heavy-duty lubricant or is exposed to the damaging effects of salt, moisture or chemical corrosion. Works as an undercoat, leaving a wax-like film. Recommended for motorcycle chains. Won't "sling" off. Dry to the touch. Doesn't attract dust.

Miracle Wash Waterless Wash and Polish Spray

This unique dry car wash and polish delivers outstanding performance and quick, easy and economical spray application. No water required. Incredibly easy to use: simply spray on, use a clean terry cloth towel to spread Miracle Wash and wipe clean with a second terry cloth towel. It's simply the fastest way to clean your vehicle. Specially formulated surfactants lift dirt and other particles from the surface of your car and hold

them in suspension. Miracle Wash then acts as a shield, protecting the surface from abrasion while you wipe the dirt clean. Repels dust and light dirt particles and protects against the sun's ultraviolet rays.

PRICES SUBJECT TO CHANGE WITHOUT NOTICE

SALES TAX INFORMATION

AMSOIL INC. implemented a software package called Vertex in February 2002. When you place an order that is shipped to the mailing address contained in our data base Vertex charges the tax rate for your location based on the province, city and county of your address. If you have your order shipped to a different address, AMSOIL will charged the highest rate (including provincial & applicable local rates) for that area to prevent underpayment of taxes in that area.

AMSOIL INC. is registered to collect sales tax in each province where applicable.

For **Dealers**, taxes will automatically calculate based on the suggested retail price. Therefore, if you are a **Dealer** ordering for personal use you must notify the telephone operator before giving the item number to be ordered. You may place one order that contains items for both resale and personal use. Be sure to tell the operator those that are for personal use as you give the item numbers.

For all other customers sales tax will be calculated on the purchases price of the product.

Tax Rate Determination

The sales tax rates are set in the following manner:

1. If you pick up your order at the Distribution Center, you will be charged the sales tax applicable at that **point of sale**, that is the prevailing tax rate at the Distribution Center location.
2. If you have the order **shipped**, sales tax will be charged at the rate applicable to the ship to address.

Incorrect Tax Rates

If you have been charged an incorrect tax rate on your orders that are shipped to the mailing address listed on file with AMSOIL INC., you will need to do the following:

1. Obtain documentation from your local tax authority, referencing the full physical address on file with AMSOIL INC. which states the proper tax rate for your address.
2. Please mail this documentation to the following address:

AMSOIL INC.
Attn: Sales Tax Department
925 Tower Avenue
Superior, WI 54880

Please allow time for processing this rate change. Tax rate changes will be verified via a written notice from AMSOIL INC.

Please remember when you ship to a different address other than the one on file with AMSOIL INC. you will be charged the highest rate in that province. To recover the sales tax difference when you resale product in a lower sales tax area you will need to do the following:

1. To apply for a refund of the unrecovered portion of sales tax obtain a "Sale Tax Refund Form". Remit this signed form along with sales receipt copies of the sales in the lower rate areas.
2. Otherwise you can deduct unrecovered portions of sales tax on your Federal Income Tax return on Schedule C.

Exemption Certificates

If you prefer to pay the state sales tax directly to your revenue department rather than having AMSOIL collect it at the time you purchase the products, contact your state for a Tax Exemption Certificate.

When you obtain this certificate, send a copy of it to AMSOIL INC. along with a signed G-495 Uniform Sales & Use Tax Certificate (available at no charge from AMSOIL INC.). Once we have these certificates on file your purchases will be tax exempt. Please mail the documentation to the following address:

**AMSOIL INC.
Attn: Sales Tax Department
925 Tower Avenue
Superior, WI 54880**

Unfortunately, we are not allowed to exempt sales tax payments unless we have copies of these certificates on file, so be sure to send them in before you claim any exemptions. When we receive your certificates, we will be able to credit you for any sales taxes you've paid as far back as three months or the effective date on your Sales Tax Exemption Certificate if it is less than three months from the day we receive your information.

This procedure is also necessary for any institutions, business or government agencies claiming sales tax exemptions.

SALES TAX TABLE As of September 1, 2002

The following Sales Taxes are collected by AMSOIL on purchases made by Dealers in these provinces. Apply these tax rates to the Suggested Retail total on your order and freight.

British Columbia.....	7.5%
Newfoundland	15%- HST
Pr. Edward Island.....	10%
Manitoba	7%
Nova Scotia.....	15%- HST
Quebec	7.5%
New Brunswick.....	15%- HST
Ontario	8%
Saskatchewan.....	7%

In the provinces of Quebec and Prince Edward Island the provincial sales tax will be charged on the GST.

GENERAL SALES TAX (GST)

A GST of 7% will be charged on all purchases from the Canadian Distribution centers. Only governmental agencies can be exempt from the GST tax. GST will be charged on the purchase price and freight costs. In the provinces of Quebec and Prince Edward Island the provincial sales tax will be charged on the GST.

HARMONIZED SALES TAX (HST)

The provincial sales tax in Newfoundland, Nova Scotia and New Brunswick is harmonized with the GST and is referred to as the Harmonized Sales Tax (HST) at a rate of 15%. Of this, 7% represents the federal component and 8% the provincial component of HST. HST applies to the same base of goods and services as GST.

CANADA ENVIRONMENTAL HANDLING CHARGE

The provinces of Alberta, British Columbia, Saskatchewan, Quebec and Manitoba have a product management program to promote and facilitate the cost-effective collection and recycling of used oil, used oil filters and used oil containers. AMSOIL INC. is a member of the Used Oil Management Association for each of

these provinces. These associations are set up to implement and manage this program on AMSOIL's behalf along with other related companies. AMSOIL's responsibility is to collect and remit the "Environmental Handling Charge."

The following products will be charged **\$0.05** per liter for all container sizes: TRO, TSO, HDD, CEO, AMO, ATM, ASL, ARO, PMO, ACD, PCO, AME, ANG, AGR, AGL, AGO, AGT, ATH, PML, PMM, PMN, TGO, TGR, XLF, XLT, and the RC, AW, TB, SG, TCC, DC, PC AND WL series lubricants.

The following products will be charged **\$0.05** per liter for all containers **under 30 liters**: ABC, AFO, AIO, ALU, API, ATC, BTC, CPI, PCI, PCK, TCC, TCR and series CL and WL.

Products listed that have containers **under** 30-litre capacity are charged **\$0.05** for each liter of oil and **\$0.05** for the container; products listed that have containers **over** 30-litre capacity are **\$0.05** per liter of oil but not for the container. Therefore, 60-litre kegs, 113-litre drums and 208-litre drums of the products indicated are not charged a container fee but are charged the oil fee.

Filters of any type that are **under 8 inches**, a charge of **\$0.50** per filter is applied to the order. For any filter that is **8 inches or greater**, there is a **\$1.00** per filter charge applied to the order.

RESIDENCE DELIVERY FEES: In some provinces, carriers may charge an additional fee for delivery to a residence. The consignee pays any ADDITIONAL freight charges in these provinces.

PICK-UP ORDERS: It is advisable to call a Distribution Center before traveling a great distance to pick up product.

ALL ORDERS SCHEDULED FOR "PICK-UP" MUST BE PICKED UP WITHIN 5 DAYS OF THE DATE OF THE ORDER.

ROUTING: You may include specific routing instructions with your order. However, since we use the most economical method of transportation, the final decision on routing pre-paid freight orders rests with the Distribution Center Manager.

If you need a specific routing guarantee, specify that your order be shipped "Freight Collect." However, UPS and Parcel Post shipments cannot be shipped "Freight Collect."

EXPEDITING AND TRACING: If you have not received your order in 10 to 14 days, contact the Distribution Center ordered from. Be prepared to furnish the following information: **1.** Order date. **2.** Ordering Dealer's name and Z.O. number. **3.** Distribution Center Order Form number (upper right corner). **4.** To whom shipped and address. AMSOIL will notify you of the method of shipment, date of shipment, and present location as soon as possible.

SHORTAGES: On shipments with shortages, have the driver note the number of pieces short on the delivery receipt and have him sign it. Then call the O.S.&D. Clerk at the delivery carrier's office and report your shortage. If these efforts fail to complete your shipment, contact your AMSOIL Distribution Center and request assistance.

LIMITED DISTRIBUTION: Every Distribution Center does not carry a complete inventory of the products listed in this price list. When there is a substantial repeat order for a product not carried by your Distribution Center, please discuss it with the Distribution Center manager.

CLAIMS AND DAMAGED SHIPMENTS

(NOTE: Claims must be made within 7 days from time of receipt)

Items Picked Up at Distribution Center

If you pick up an order at any Distribution Center and discover concealed damage when the case is opened at home, return the full case to the same Distribution Center for exchange at your convenience. Your copy of the Distribution Center Order Form (G-29) must accompany such an exchange. The exchange can only be made for exactly the same products in full case lots.

Parcel Post Shipments from a Distribution Center

1. Claims for damages by Parcel Post must be filed by you. 2. Return damaged merchandise and cartons to local post office when claim is filed. 3. All claims are returned to shipper for verification of mailing date and distributor cost of damaged items. 4. If reimbursement is made to AMSOIL as the shipper, we will replace shipment to you on a no charge basis. 5. You can also accept reimbursement on your claim. If so, you must place a re-order with the Distribution Center for replacement of your damaged products. 6. **Liquids and aerosols cannot be shipped by Parcel Post.**

United Parcel Service (UPS) Shipments

1. When there is visible damage, refuse to accept delivery. UPS will return the damaged goods to the Distribution Center, and the Distribution Center will re-ship your order to you. **NOTE:** If you accept delivery of visibly damaged merchandise, you accept all responsibility for filing claims with UPS. 2. When there is concealed damage discovered after you accept delivery, notify the Distribution Center for instructions immediately.

Other Shipments (LTL or Common Carrier)

1. When damaged goods are received, have the driver make note of the damage on the delivery receipt before you sign it. 2. Call the carrier's local office and request an inspection of damaged goods. 3. File claim with carrier for Dealer Cost of the merchandise. 4. Damage claims **MUST** be filed within 7 days of delivery. The sooner you file, the better. 5. **Never refuse a damaged shipment.** To do so will cost you freight both ways!

FREIGHT AND HANDLING INFORMATION

FREIGHT AND HANDLING CHARGES: Your order will be charged actual freight or you may request it to be shipped freight collect. UPS and Parcel Post shipments CANNOT be shipped "freight collect."

The following shipping schedule is provided for estimation purposes only. Depending on your location, some areas may be higher. Actual freight costs will be established when each order is filled. Credit cards will not be processed until freight is calculated and added to each order.

Location	1-3 lbs.	4-5 lbs.	6-15 lbs.	16-26 lbs.	27-49 lbs.	50 lbs. or more
ON (Non-Ottawa-Toronto)						
PQ (Non-Montreal)	5.00	6.00	9.00	13.00	19.00	.41/lb.
NF, NS, PE, NB	16.00	17.00	19.75	22.00	38.00	.53/lb.
Ottawa, Toronto, Montreal	4.50	5.00	7.70	10.50	16.00	.29/lb.
AB	6.00	6.00	7.25	8.75	.32/lb.	.43/lb.
BC, SK	8.60	8.60	10.50	12.00	.43/lb.	.29/lb.
MB	12.00	12.00	13.50	15.00	.55/lb.	.36/lb.

Notes: 1. In the Northwest Territories and Yukon, actual rates vary to outlying areas. 2. In some cases there are "beyond point" charges. 3. Liquids cannot be shipped by Parcel Post. 4. Aerosol cans (CMP, CLC, CPF, CFW and CLS) cannot be shipped via airmail.

Lift Gate Service

(LTL or Common Carriers)

Customers can request lift gate service at time of ordering if they do not have a method of unloading large orders, 30- and 55-gallon drums or totes. Not all carriers offer this service, so when requesting it, please allow additional time for delivery. If lift gate service is requested, the consignee pays all costs for the additional service and will be charged the actual cost. Because these costs can vary depending upon the carrier used, it is recommended prior to placing the order to contact the distribution center from where the order is being shipped to obtain these costs. This is necessary because carriers are responsible for moving the shipment to the back of the trailer to be unloaded, but are not responsible for unloading the shipment.

Call Before Delivery Requests

(LTL or Common Carriers)

At the time of order, customers can request to be contacted prior to delivery. A daytime phone number must be provided, will include instructions to call before delivery. The carrier will contact the customer prior to delivery to set up a delivery time. If this service is requested, the consignee pays all costs for the additional service and will be charged the actual cost. Because costs can vary depending upon the carrier used, it is recommended prior to placing the order to contact the distribution center from where the order is being shipped to obtain these costs.

ANY OTHER REQUESTS FOR SPECIAL SERVICES WILL BE CHARGED TO THE COSIGNEE AT ACTUAL COSTS.

Dealer Exchange Policy Guidelines

- Must be currently marketed products in resalable condition.
- Copy of original order must accompany exchange order form.
- Product may be exchanged within 30 days of purchase with no restocking fee. Product exchanged after 30 days is subject to a 20 percent restocking fee.
- Products received in exchange must be of equal or greater value than those returned. Commission credits are not paid on product exchanges.
- No exchanges will involve cash refunds or credits
- All freight charges are the responsibility of the Dealer
- Products not eligible for exchange are held for 30 days at the Distribution Center and the Dealer is notified.
- Special order air filters and Superior-only items (literature, vitamins, etc.) cannot be exchanged.

Return Guidelines for Dealers Leaving the Business

- Dealership must be currently registered and will be terminated following completion of return.
- Dealer must submit a list of the items to be returned, a copy of the original orders and a request for the return to the Sales Department in Superior, WI.
- Must be currently marketed products in resalable condition.
- Products will be returned to the nearest Distribution Center at the Dealer's expense.
- Upon approval, Dealer will receive a refund of the Dealer cost, less a 20 percent restocking fee.
- Special order air filters and Superior-only items (literature, vitamins, etc.) cannot be returned.
